

What to do about Canine Allergies or Skin Issues

TEST

Many dogs have food sensitivities. Find out what they are sensitive to. ✕

[NutriScan Test by Dr. Jean Dodds](#)

IMMUNE SYSTEM

Many vets will try antibiotics and steroids. This can ruin your pup's immune system over time. Natural approaches MAY be better. ✕

[Learn more](#)

VET

Find a holistic vet or homeopathic vet that will help you heal your pup from within, instead of using band-aids to mask WHY they are having issues OR find a canine dermatologist. ✕

DIET

Consider a limited ingredient raw diet. ✕ Canine nutritionists tell us that a raw diet eliminates MANY problems. Be conscious of what treats your pup is getting.
